EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of issue fee.

Authorization for this examiner's amendment was given in telephone interview with John Reid (Reg. No. 36,369) on February 16, 2005.

The application has been amended as follows:

Claims 28-31 are cancelled.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 13 and 21 and all dependent claims are rejected under 35 U.S.C. second paragraph.

The specification discloses two different light sources (stationary and movable). The light sources claimed as part of scan window illumination and the scanning light source are not clearly distinguishable in the claims. As an example please refer to claims 1-3 and claim 5.

Therefore the application has not been examined on its merits.
